Built for business

Logitech is a trusted leader in business technology for the desktop. From our first computer mouse to our latest headsets and webcams, Logitech has a long track record of building innovative products that drive productivity – and that employees absolutely love.

Complete ecosystem

Our products form a complete ecosystem for the personal workspace. They're available globally and certified by major partners, including Microsoft, Zoom, and Google. And they meet strict security requirements for business, including Logi Bolt for mice and keyboards.

Remote management & insights

With one tool, Sync empowers IT teams to manage devices remotely, monitor usage, ensure compatibility through firmware updates¹, enable desk booking, and gather space utilization insights – all from one central space.

Design for Sustainability

We actively integrate Design for Sustainability principles into new product development and updates. Software updates and replaceable parts extend the life of devices.

3 in 4

products are now made with Next Life Plastics

73%

of new products are shipped in FSC™-certified paper packaging

66%

of product lines use low-carbon aluminum

Designed for people

At the end of the day, the success of your business depends on your people. By prioritizing usability, comfort, and innovation, our products help your employees perform at their very best.

One size does not fit all

We offer a variety of mice and keyboards, with different sizes and shapes and designed for different needs, along with a diverse range of headsets and webcams that cater to different wearing styles and personal preferences.

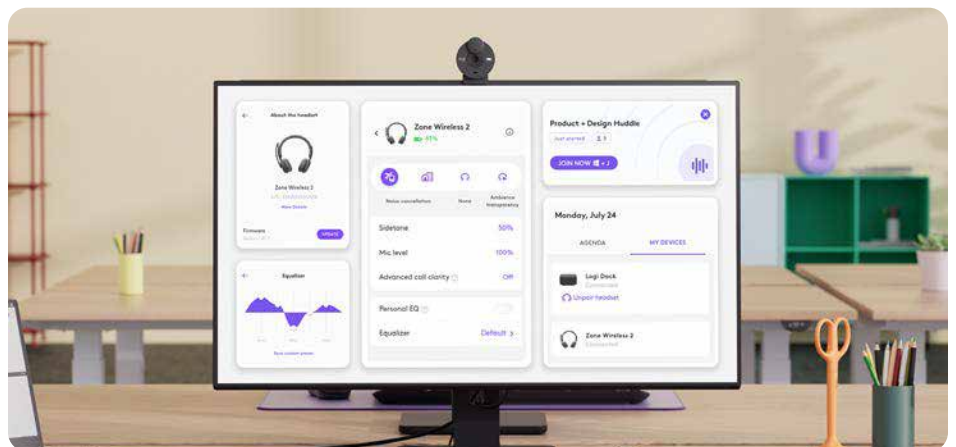

Be seen & heard

Logitech enables employees to show up the way they want to, with best-in-class video and simple, intuitive image controls. Our focus on better audio has led us to innovations that enable clearer communication in challenging environments.

Simple & intuitive

We design simple and intuitive solutions for people. The Logi Tune mobile and desktop app allows employees to customize their Logitech products for a personalized experience. Options+ extends customizations for Logitech mice and keyboards.

Curated solutions overview

We make it simple to provide the right tools for every employee with curated solutions that are quick to deploy and that meet your workforce's needs, whether employees are in the office, at home, or on the road.

Advanced

The Logitech Advanced solution includes premium tools with enhanced performance to meet the needs of power users like developers, creatives, and analysts.

Core

The Logitech Core solution offers high-quality tools that increase employee efficiency and satisfaction and improve collaboration.

Ergonomic

The Logitech Ergo solution meets healthy workplace standards and promotes employee wellbeing. Support a happier workforce with ergonomic devices made for comfort and productivity.

Value

The Logitech Value solution provides employees with plug-and-play devices that are easy to use and affordable.

Mobile

The Logitech Mobile solution gives people the ability to move fluidly between the home and office and while traveling.

Advanced solution for specialized professionals

The focus

Our Advanced solution provides specialized professionals like developers, creatives, and analysts with top-of-the-line products for enhanced performance. Deliver devices with control and precision, and with innovative features that streamline workflows so employees can achieve excellence.

- ✔ Maximize employee productivity
- ✔ Tailored for specialized performance

Our solution

Boost productivity for specialized workflows with a 4K webcam, premium ANC headset, and customizable mice and keyboards for precise controls.

Advanced solution for executives

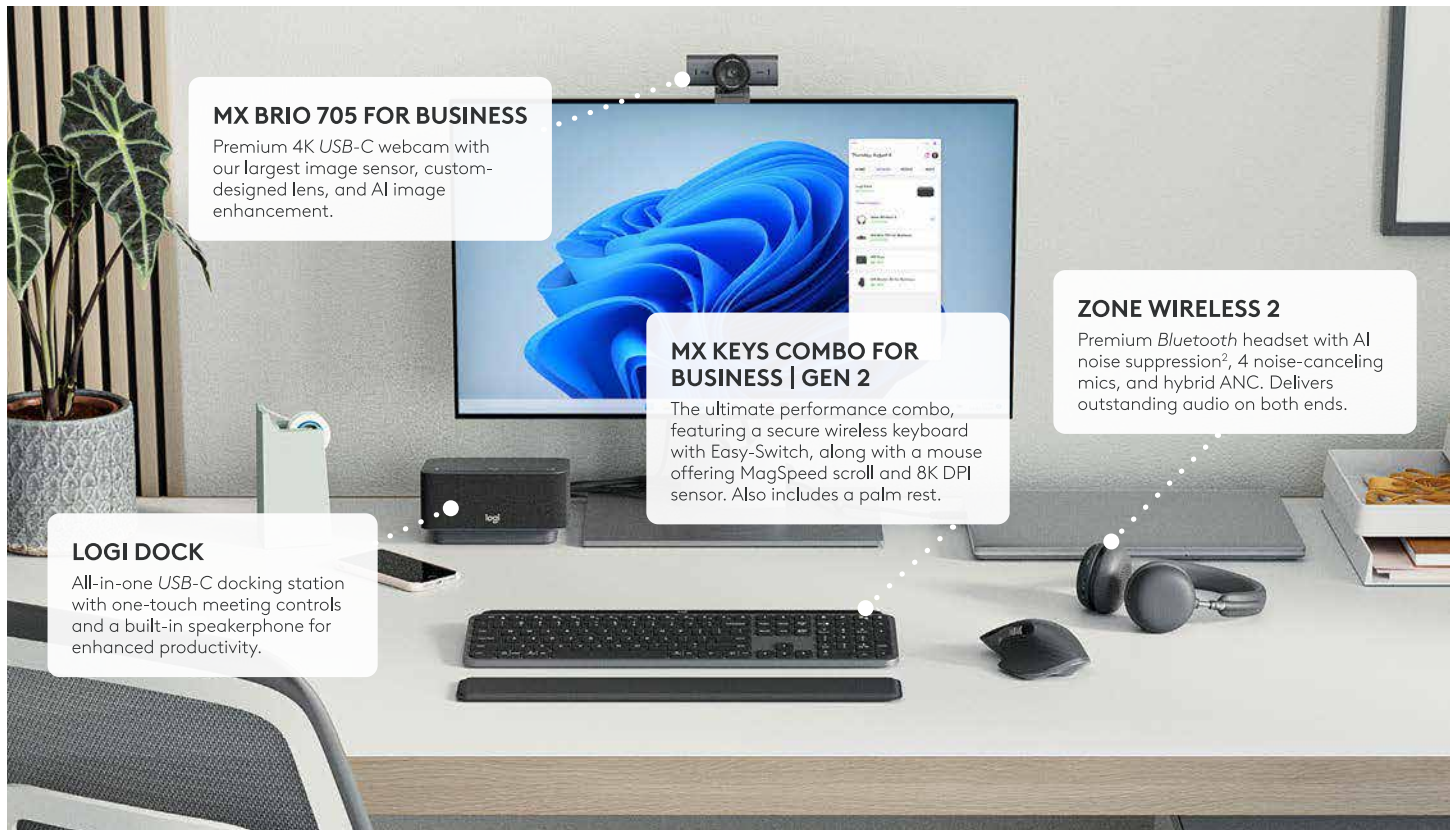

The focus

Our Advanced solution is also perfect for senior management roles including C-suite executives. Acting as the public face of the company and making major corporate decisions, they need the best tools that allow them to sharpen work focus and achieve high performance from anywhere.

- ✔ Ideal for external-facing roles
- ✔ High-quality, innovative tools

Our solution

Provide executives with a top-tier webcam, headset, keyboard, mouse, and docking station, featuring advanced technology and premium materials.

Core solution for most employees

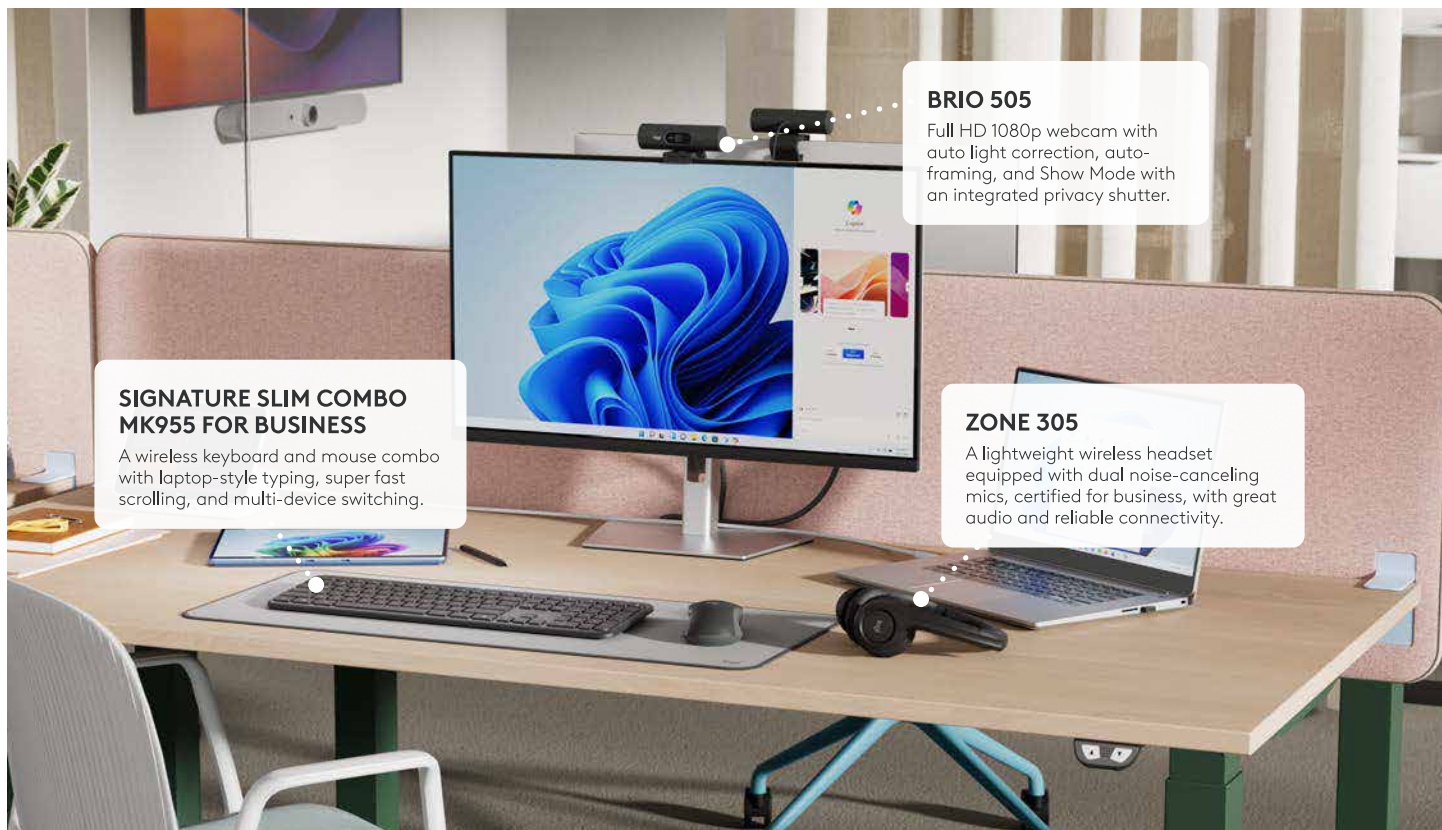

The focus

Core employees are the majority of your workforce. They include roles in marketing, finance, sales, HR, etc. Enable these core professionals to work more efficiently by equipping them with high-quality tools like mice, keyboards, headsets, and webcams to enhance productivity and facilitate collaboration.

- ✔ A win for IT and employees
- ✔ Designed for today, upgraded for everyone

Our solution

Equip employees with desktop tools they love without breaking the bank — a slim keyboard and mouse combo, high-quality headset, and webcam for clear calls and engaging video meetings.

Ergonomic solution for health-conscious employees

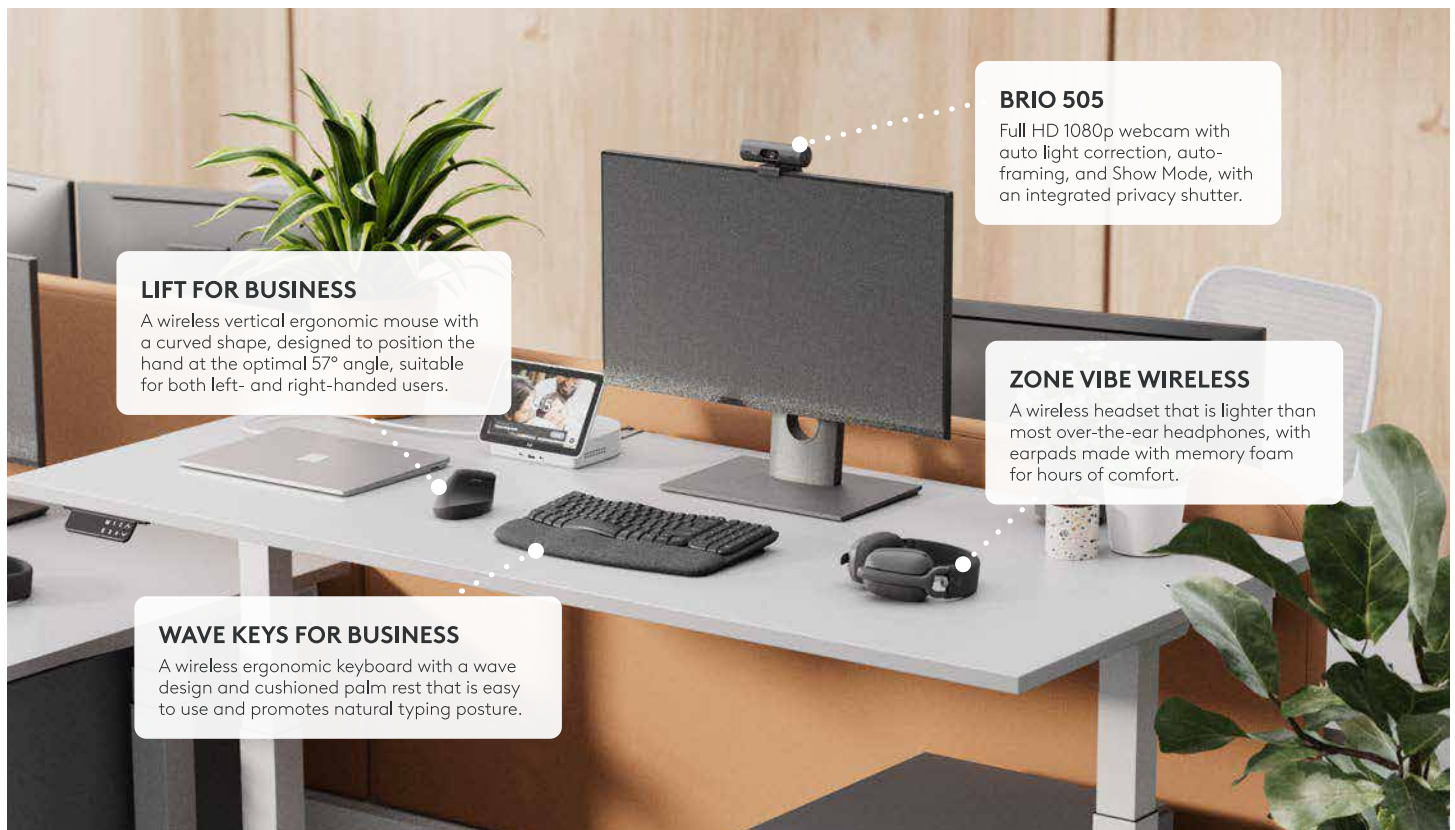

The focus

Our Ergo products are for employees that are conscious of wellbeing and seek ergonomic workspace solutions to reduce strain but want an approachable design. Team members can have the flexibility to choose tools that best meet their ergonomic needs.

- ✓ Loved by users, approved by leading ergonomists
- ✓ Promote a healthy workplace for comfort and productivity

Our solution

Offer employees an ergonomic keyboard featuring a wave design and cushioned palm rest, paired with a vertical mouse available for both left and right hands.

LIFT FOR BUSINESS

A wireless vertical ergonomic mouse with a curved shape, designed to position the hand at the optimal 57° angle, suitable for both left- and right-handed users.

WAVE KEYS FOR BUSINESS

A wireless ergonomic keyboard with a wave design and cushioned palm rest that is easy to use and promotes natural typing posture.

BRIO 505

Full HD 1080p webcam with auto light correction, auto-framing, and Show Mode, with an integrated privacy shutter.

ZONE VIBE WIRELESS

A wireless headset that is lighter than most over-the-ear headphones, with earpads made with memory foam for hours of comfort.

Value solution for entry-level employees

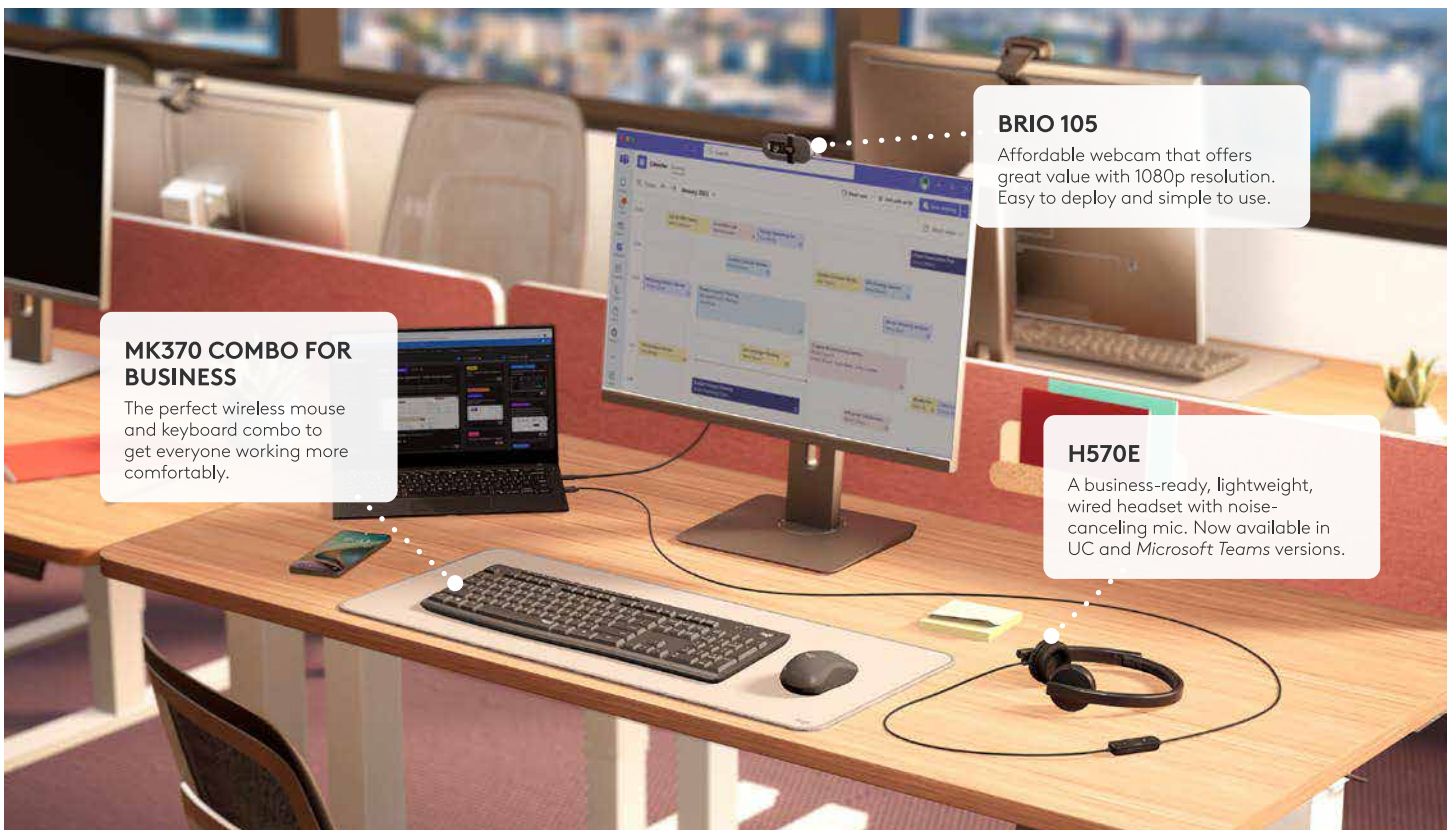

The focus

A more cost-effective option for your company. This portfolio offers devices that make tasks easier, save time, and enable operational, administrative, and contract roles to get more done with minimal learning curve. Deploy devices that are reliable, durable, and intuitive.

- ✔ Effortless to use
- ✔ Designed to perform well without all the bells and whistles

Our solution

Offer employees affordable, plug-and-play devices and simplify deployment for all departments, even those with tight budgets.

Mobile solution for workers who roam free

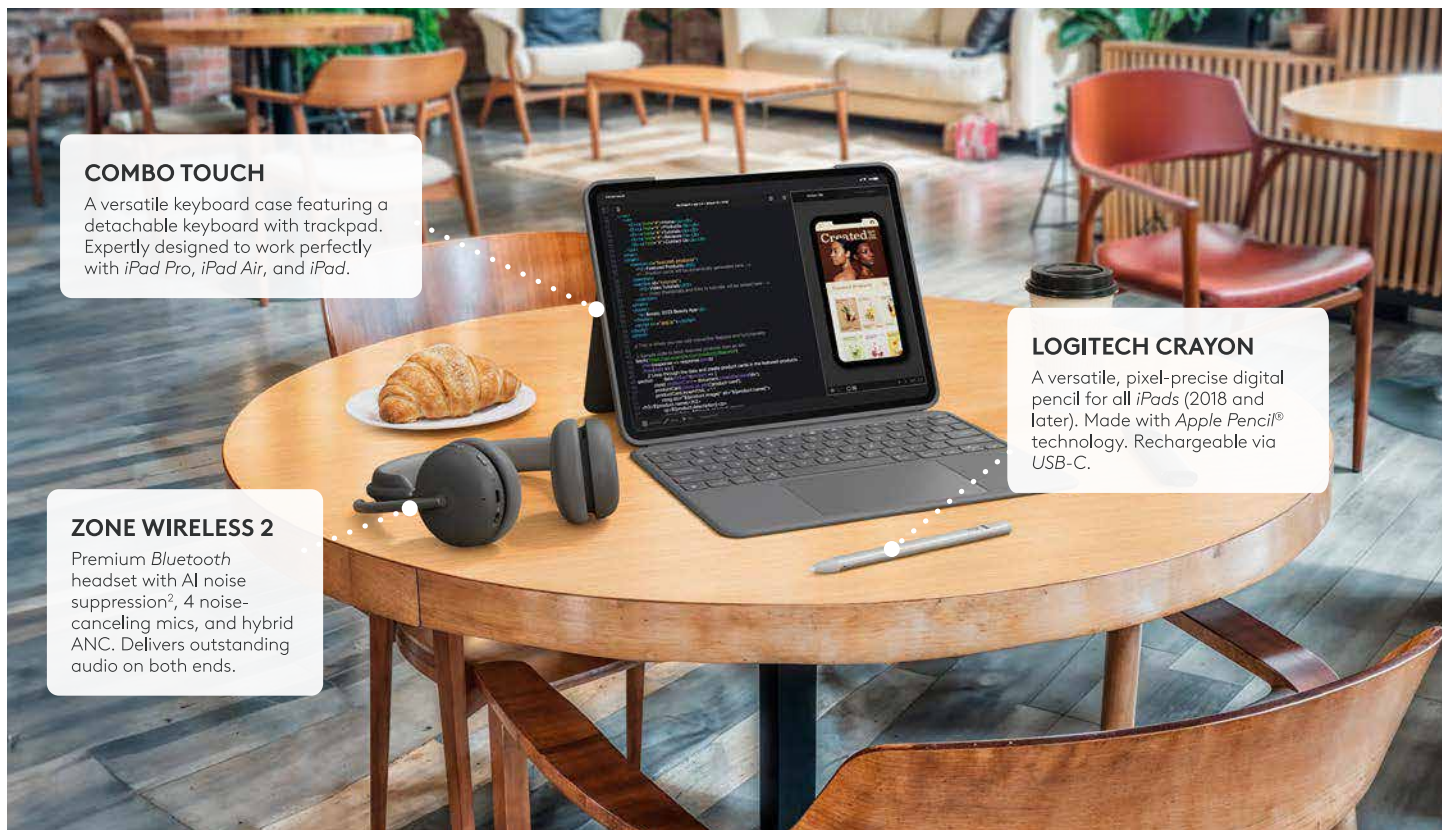

The focus

Empower employees to do their best wherever they travel. Slim, light, and portable, Logitech mobile solutions are made to slip into bags and briefcases, go wherever employees go, and power up at a moment's notice. Employees are set free to work, learn, and create from a park, a cafe, a hotel, or a client's office.

- ✓ Perfect for tablets, phones, and laptops
- ✓ Made for typing, clicking, and sketching across various screens

Our solution

The right tools give employees the power to perform at the office, at home, while traveling, or anywhere in between.

COMBO TOUCH

A versatile keyboard case featuring a detachable keyboard with trackpad. Expertly designed to work perfectly with iPad Pro, iPad Air, and iPad.

ZONE WIRELESS 2

Premium Bluetooth headset with AI noise suppression², 4 noise-canceling mics, and hybrid ANC. Delivers outstanding audio on both ends.

LOGITECH CRAYON

A versatile, pixel-precise digital pencil for all iPads (2018 and later). Made with Apple Pencil[®] technology. Rechargeable via USB-C.

Innovation beyond hardware

Optimize workspace solutions with software designed to enhance the employee experience and help IT manage devices.

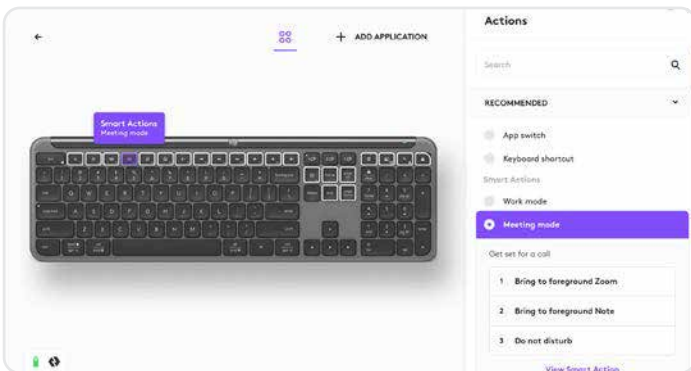

Software

Developing new and innovative software enhances Logitech products by ensuring a consistent, unified, and customizable experience across the distributed workforce.

Logi Tune

Puts the settings for the webcam, headset, mouse, keyboard, and Logi Dock at the user's fingertips for more focused and productive collaboration. Allows employees to customize desktop peripherals with ease.

Logi Options+

Powerful, easy-to-use application that enables advanced customization like Smart Actions for Logitech mice and keyboards, allowing your team to work exactly how they want.
